### Resident Spotlights for November: Silas & Alice Scheer

Si and Alice Scheer have always had a strong foundation in their church. Si's Father was a minister for many years and this led the family to move from Colorado to Texas in 1933 with his 6 siblings. Si said, "I'm not a native Texan, but I got here as fast as I could." Alice was only 5 yrs old when she met the 7 yr old Si at a church function.

Alice is a native Texan that had one brother growing up in the small town of Follett, TX. Near the church, her family farmed wheat and raised cattle. Alice and Si attended the same schools growing up. Alice said, "Si was always the first one on the bus, so he would save me a seat right by him in the front row." I asked Alice what she thought of Si and she giggled and said, "well, I thought he was real cute and we were good friends." \*Above is a picture of them in their wedding attire from 1949 to 1999 (50th Wedding Anniversary). Yep, SAME gown and SAME suit!

Si enlisted in the Navy and wrote Alice occasionally, but they were not dating at the time, just good friends. After Si's military services, he attended Business College in Dallas. Two years later they married and had their two boys. Si went on to have a long 39-year career with Sears as their National Operational Manager in Accounts Payable and oversaw 350 people! Alice worked at a bank for a short time and then became a full-time homemaker. Shortly before Si retired they bought another home in Wills Point, TX on 35 acres of land. Alice could garden, paint, and both could enjoy their own pond and orchard. Years later they both decided it was time to move on and sell the Wills Point home. They kept their Dallas house till it was time to move into The Landon. While they love living here, Alice said, "from time to time we still drive by our old farmhouse." The couple has celebrated their 71st wedding anniversary! I asked what is the secret for a happy marriage and they said, "quality time, and we pray together daily."

### TED Talk "Aging Gracefully" with Rachel

**Monday, November 2nd & 16th  
3:00 PM in the Theater**

Exploration of the wonders of aging and the remaining active contributors to one's life.

### Gobble Gobble Fire Safety Talk
