## Let's Talk .....

### A message from our **Executive Director**

Dear Residents,

I am pleased to share Shorehaven now features an additional layer of protection that goes beyond surface sanitation. We have recently installed Needlepoint Bipolar Ionization NPBI™ air purification technology to better protect all of our residents and associates from COVID-19, the flu, and more. NPBI™ is certified ozone-free, and safely inactivates harmful pathogens and particles before they can spread.

The installation of NPBI™ air purification technology is part of our Clean Air Commitment to all those we have the honor to serve. Please contact me if you would like more information about this industry-leading precautionary measure.

Warmest Regards,

Brian Radyko
